Wisconsin Concealed Weapon License REFERENCE MANUAL

A handgun is an excellent emergency defense tool. It is carried for the unexpected emergency, which you cannot predict the day or time that you may need to use your concealed handgun to save your life or the lives of others around you.

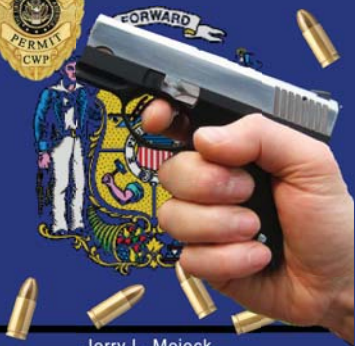

A permit to carry a Concealed Weapon authorizes you to carry a Concealed Weapon. It does not authorize you to use the weapon!

The use of a weapon is regulated by other state laws and you must be totally familiar with those laws in order to stay on the right side of the law!
