Ark Encounter & Creation Museum

The Ark Encounter is a full-sized replica of the largest wooden timber structure in the world. At 510 feet long and more than 50 feet tall it is filled with hundreds of displays, including animal stalls, plus recreations of how Noah and his family may have lived. The Creation Museum allows visitors to experience earth history as God has revealed it in the Bible with talking heroes of the faith, and many professional displays that honor God's Word.
